A SUPREME HALLMARK:

THE SUPREME INDUSTRIES LTD

With a grand six decade legacy to draw and benefit from, Supreme Industries have evolved to become an undisputed leader in India's Plastics Industry, with valuable experience in providing innovative and cost effective solutions! Today Supreme generates over Rs 3500 crore as annual turnover by producing a whopping 1, 30,000 tonne of polymers! Supreme Industries offer the widest and the most comprehensive range of plastic solutions from 17 state-of-the-art manufacturing units spread across India. Significant support is provided by their very own strong R&D centre, strengthened by advanced technological applications that are driven by the World's best!

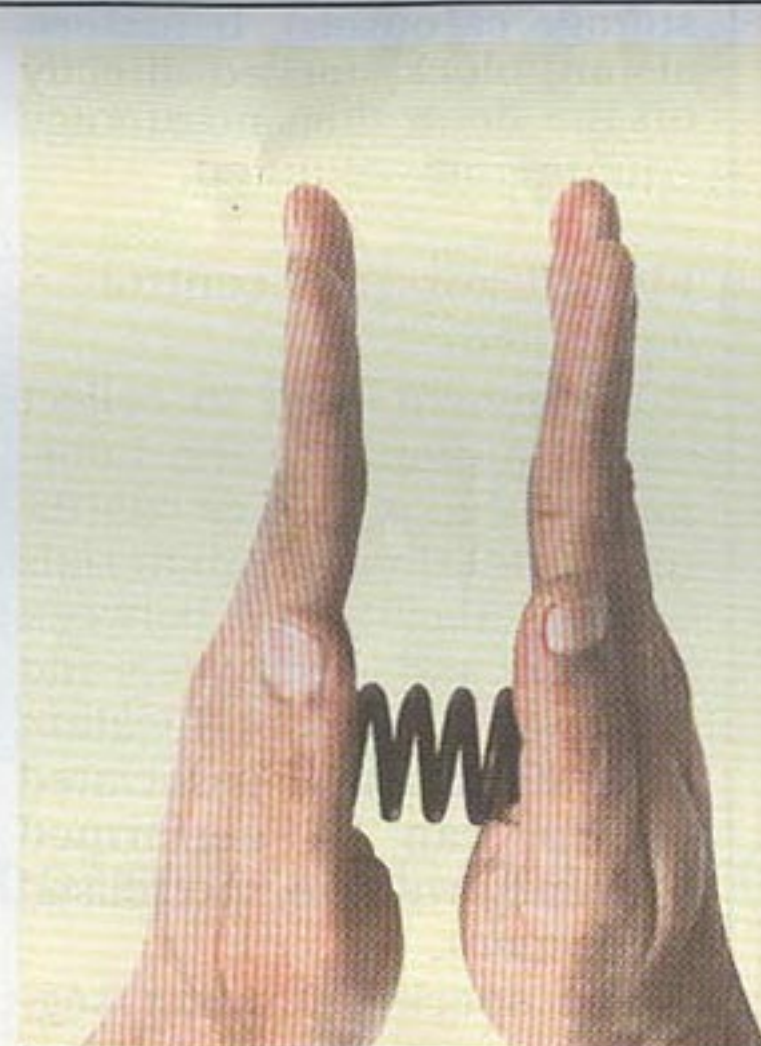

Being environment friendly has been and is, a profound part of Supreme's corporate philosophy. This is one aspect that forms an essential parameter in every decision, across all divisions and levels of the company. For specialised solutions in every sphere, there are fully devoted verticals in the construction accessories division that form a part of the Protective Packaging Division - DURA (for the Civil Industry), INSU (for application related to Insulation), PROTEC (for Packaging related products) and PSL (for Packaging Services and Logistics).

The Civil application areas we specially cater to can be broadly classified as:

- Expansion joints
- Spandrel Insulation
- Glazing Back-up
- Black Cotton Soil Barrier
- Overdeck Insulation
- Shuttering

Each one of Supreme's strategies, plans and actions has always been towards providing high-quality, yet extremely cost-effective solutions! Name any value or aspect of what you are buying - be it superior protection or energy saving insulation, or durable and long-lasting solutions in the civil industry, Supreme delivers it. Because at Supreme, every single solution we create is guaranteed to be Value Efficient.
