

Readymade Toilet Blocks and Ladies Urinals

The Supreme Industries Ltd., is an acknowledged leader of India's plastic industry. It is credited with pioneering several path breaking products and has been a torch bearer in the transition from conventional to advanced plastic piping products in the country. Its customer centric approach fuels its research for designing unmatched quality products to meet the aspirations of its quality conscious customers. The innovative product portfolio offered by Supreme is extensive in range and application and comprises variety of pipes and vast spectrum of fittings totaling over 8000 diverse products.

After successfully introducing 'Nu-Drain underground drainage system' and 'Safeguard readymade septic tanks', we are pleased to introduce yet another innovative and useful product i.e. mobile '**Readymade Toilet Blocks and Ladies Urinals**'. These products are introduced under the brand name "Cleanage". These superior products offer multiple advantages and are in line with central Govt's initiatives to provide sanitation for all and will certainly enhance the quality of life by improving quality of sanitation across the country.

Unique Features

- Can be installed and put to use without any loss of time
- Complete in all respects with required traps, plumbing accessories and electrical connections
- Light weight yet strong and sturdy
- Easy and quick installation
- Elegant look
- Easy to clean and maintain • Long life

Jeevan bhar ka saath...

Supreme readymade toilet blocks and ladies urinals are designed to provide a readymade solution which can be directly installed without any need of construction. These useful products are designed considering all functional requirements and can be used at various places along with readymade septic tanks. Thus lot of time and efforts are saved and the product can be immediately brought to use.

Manufactured using virgin raw material these toilet blocks are free from any corrosion or chemical reactivity. As the surface is smooth it is very easy to clean and wash. It is provided with circular vent opening on roof and louvers for free air circulation to provide effective ventilation.

Technical Specifications

Material	: Polyethylene
Overall Dimensions	: 2450 x 1080 x 930 (HxWxB)
Size of Outlet	: 110mm (for toilet block) 75mm (for ladies urinal)

Installation Procedure

1. Select the suitable place for installation of toilet block.
2. Provide 6" thick PCC beneath the bottom of the toilet block.
3. Place the toilet block on PCC.
4. Construct 9" thick brick wall of 6" height around the toilet block.
5. Connect drain pipe to the outlet of P-trap
6. Fill the gap between brick wall and wall of the toilet block by rich mortar or PCC. Alternative toilet blocks can be anchored to the firm base using clip clamps.
7. Connect the toilet block with septic tank and complete the water and electric connections.
8. Extend the outlet pipe of septic tank up to disposal point. i.e. Soak pit or drain field.
9. Plaster and finish the masonry work properly.

Applications

- Rural sanitation
