WE EXCEL GROW LEAD

Customer-centric thinking is what Supreme's leadership is all about. No matter what segment they come from, we watch and understand the requirements of our customers. We foresee how these needs can be met with better and improved products. Not thinking of short-term gains, we focus on developing products that go on to serve the long-term needs of our customers.

Customer satisfaction is the foundation on which we have build the edifice of Supreme's leadership. In this pursuit of constantly seeking to exceed customers' expectations, we have developed a tradition of innovative thinking and supplementing it with dedicated Research & Development.

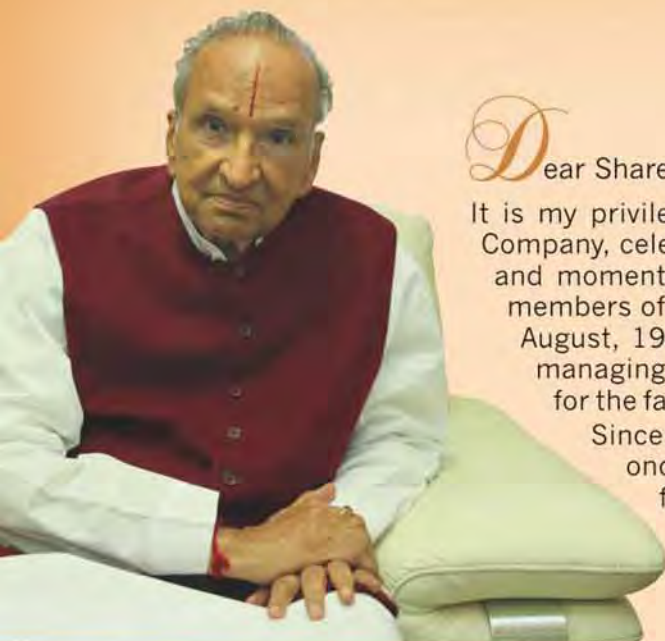

Thus, we pioneer new products, create new niche avenues and continue on our path of growth & excellence.

At the Supreme Group, we have continued on our path of excellence and growth with dynamic initiatives like creating better products, replacing conventional material with superior specialized options, imbibing the world's finest technologies and following the best-quality practices. We continue to expand our footprints both in manufacturing facilities and distribution network spread across the country. Today, our products roll out from 25 manufacturing facilities, spanning across 11 States and Union Territories. Further we plan to add three more facilities in the current year. Our zeal to grow has no boundaries and we will continue to spread our wings.

Supreme is not just a well-known brand, but one that has come to be a name synonymous with new-age design innovation, world-class quality & proven durability-earning us the trust of millions, not just in India, but across the world. We treasure this trust and stand resolved to continuously strengthen it with our network of plants, offices & distribution network across the country for timely delivery of products and faster after-sales-services to customers.

The Company's key focus was and will always remain to
ADD VALUE TO ITS CUSTOMERS.

Our performance landmarks are our greatest source of inspiration to work with even more dedication and customer-centric devotion. In fact, our achievements and milestones propel us to excel, grow and lead.

Chairman's Message

*D*ear Shareholders,

It is my privilege to present before you the 75th Annual Report of your Company, celebrating the Platinum Jubilee. The Company has had a long and momentous journey. The present Management comprising of the members of Shri Surajmal Taparia Family had taken over the control in August, 1966; they have also completed their journey of 50 years in managing the company affairs. It is, therefore, a celebratory moment for the family as well.

Since being taken over by the present Management, the Company once having an annual turnover of around Rs. 19 lacs and functioning from two rented small tin shed establishments at Wadala & Naigaun in Mumbai, with Shareholders' Funds of Rs. 17 Lacs, has grown to achieve net turnover of Rs. 4470 crores from 25 manufacturing plants in 11 States & Union Territories, with an increase in Shareholders' Funds to Rs. 1553 crores, as on 31st March, 2017, thus

registering a CAGR of 22% and 20% respectively. Your Company, since 1966, has been committed to Plastics & Plastics Processing as its core business which continues as on date.

Your Company's Mission and Vision are to conduct business with ethical practice and WALK OUR TALK. Your Company offers consistent products and services with uncompromising quality, supported by continuous improvements and innovations, thereby exceeding customers' expectations.

Your Company follows with uncompromising zeal, its strong beliefs in integrity and honesty when it comes to dealing with all its stakeholders. With focused energy, insight, creativity and astute business sense, our initiatives have shown tangible results in shape of a constant ascent in our performance graphs.

The pride & glory of Supreme gains a whole new meaning as we look back on our trail-blazing saga of growth. It radiates with our path-breaking innovations in the shape of products and systems that have truly redefined the plastics industry and its markets. Always in pursuit of better quality products and new age designs, every single product rolling out of our state-of-the-art manufacturing facilities, is a glorious example of the highest standards of quality excellence.

In tune with its Quality Philosophy, your Company stands committed to seeing this excellence permeate in every aspect of its operations at every level in the organization. The larger quality consciousness helps us make superior products, exceed the expectations of our existing clients and win new customers with confidence.

The Company has always been a customer-focused enterprise and is a pioneer in introducing many products in India. Your Company has set-up many manufacturing facilities, introduced several new products thereby increasing the application usage of existing products, and also exited from products, which were not beneficial to the stakeholders' interest. The avowed objective of all business decisions has always been to enhance Shareholders' wealth.

Without resting on past laurels, your Company will continue to build on its strengths through effective steps. I am grateful to our stakeholders-customers for their belief in our product quality and services, our suppliers for their unqualified support to supply quality raw material & components and adhere to delivery commitment, our bankers for lending funds & providing services at the finest rate, colleagues whom we recognize as our core asset for their enthusiasm, unstinted devotion and commitment towards the quest of excellence & efficiently steering the company's resources, our Board Members for their wisdom and continuous support; and you, our shareholders for your trust and confidence.

As we all embark on the journey towards the future, we foresee greater challenges and even greater opportunities. Let's collectively dedicate ourselves to the Supreme vision to be :

A) An innovative product manufacturer. b) One of the best employers in the manufacturing segment.

I am confident that the team of your Company with its focused efforts and spirit to excel, shall achieve this vision.

With best wishes,

Explanatory Statement under Section 102(1) of the Companies Act, 2013

Item No. 5

The Articles of Association of the Company currently in force were originally adopted when the Company was incorporated under the Indian Companies Act, 1913, and were amended from time to time. It is proposed to amend the existing Articles of Association of the Company to make it consistent with the provisions of the Companies Act, 2013 including the Rules framed thereunder.

A copy of the proposed set of new Articles of Association of the Company would be available for inspection at the Registered Office of the Company during the business hours on any working day up to the date of the Annual General Meeting and during the Annual General Meeting. The proposed draft of the Articles of Association of the Company is available on the Company's website: www.supreme.co.in for perusal by the Members.

The Board recommends the resolution set out at Item No. 5 of the Notice for your approval.

Item No. 6

Shri Shivratn Jeetmal Taparia (Director Identification No. 00112513), was re-appointed as an Executive Director of the Company at 71st Annual General Meeting held on 17th September 2013 with effect from 7th January 2014, for five years. Shri S.J. Taparia was re-appointed as Executive Director not liable to retire by rotation during his tenure.

In terms of the Explanation to sub-section (6) of section 152 of the Companies Act, 2013 for the purpose of computing the number of directors liable to retire by rotation, Independent Directors are not to be considered. Your Board has strength of 10 Directors comprising Managing Director, two Executive Directors and seven Non Executive Directors comprising six independent Directors. Therefore, for the purpose of computing the number of directors liable to retire by rotation, Shri S. J. Taparia, Executive Director is proposed as a Director liable to retire by rotation.

It is therefore proposed to change the residual term of office of Shri S. J. Taparia from Director not liable to retire by rotation to a Director liable to retire by rotation, the other terms and conditions relating to his re-appointment remaining the same. With this, there will be three Directors liable to retire by rotation, which will be in compliance with the aforesaid regulatory requirement.

Except Shri S. J. Taparia and their relatives (including Shri B. L. Taparia, Shri M. P. Taparia), none of the other Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the resolutions set out at Item No. 6.

The Board recommends the resolution set out at Item No. 6 of the Notice for your approval.

Item No. 7

The Board of Directors of the Company, on recommendation of the Audit Committee, has approved the appointment of M/s. Kishore Bhatia & Associates, Cost Accountants, (Firm Registration No. 00294) as Cost Auditors to conduct the audit of the cost records of the Company for the financial year ending 31st March, 2018.

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the Member of the Company. Accordingly consent of the Members is sought by way of an Ordinary Resolution as set at Item no. 7 of the Notice for ratification of the remuneration amounting to ₹ 4,40,000/- (Rupees four lacs forty thousand only) per annum plus out of pocket expenses as may be incurred during course of audit.

The Board recommends the resolution set out at Item No. 7 of the Notice for your approval.

None of the Directors and Key Managerial Personnel (or their relatives) are interested in the said resolution.

CORPORATE SOCIAL RESPONSIBILITY

1. Brief outline of the company's CSR Policy:

The Board of Directors' at its meeting held on 21st July, 2014 approved the CSR Policy of your company pursuant to the provisions of section 135 of the Companies Act, 2013 read with the Companies (Corporate Social Responsibility Policy) Rules, 2014.

2. The Composition of the CSR Committee is as under:

Name of the Member	Nature of Directorship
Shri N. N. Khandwala (Chairman)	Independent Director
Shri B. L. Taparia	Non-Executive Chairman
Shri M. P. Taparia	Managing Director

The CSR Committee met on 27th April, 2017 and it has taken on record the activities undertaken by the Company from 1st April, 2016 to 31st March, 2017 and the expenditure incurred as on 31st March, 2017 including the expenditure during the previous year.

3. Focus Areas:

Advancement of Public Charitable objects and trusts and fulfillment of its Corporate Social Responsibility obligation laid down under the Companies Act, 2013.

The Company has identified few focus areas of engagement which are as under:

1. Benefits to the under privileged
2. Education
3. Sanitation
4. Healthcare
5. Drinking Water supply
6. Preservation of environment including watersheds, forests and wildlife.

4. Various activities under taken by the company:

i) Village health improvement Initiative

This initiative has entered it's 8th successful year since its inception in the year 2008. The health center's main camp is located at Dhadgaon in the district of Nandurbar, Maharashtra.

This facility comprises of a mobile medical van equipped with necessary diagnostic equipments, medicines etc. This mobile van is manned by a Doctor, a Nurse, a Kishori co-ordinator and project coordinator. In the year under consideration, this facility has benefited as many as 6918 patients, a growth of about 11% in beneficiaries, mostly coming from tribal population residing in remote villages of Nandurbar District.

The above health improvement program also works in sync with following activities –

- a) Medical check-up of students in Ashramshalas
- b) Medical check- up of kids in Aanganwadis
- c) Kishori Karyashalas at villages
- d) Providing Sanitary Napkins to adolescent girls in the villages
- e) Free distribution medicines especially during epidemics
- f) Free distribution of medicines such as hemoglobin, iron & calcium supplement
- g) Company's Ambulance is provided to the needy & critical patients of nearby villages.
- h) Conducting eye camp in association with Kantaxmi Shaha Eye Hospital Nandurbar.

ii) Public Sanitation :

Company had provided 4 Ladies public toilet blocks to the village of Gadegaon, Dist Jalgaon. 5th toilet block for Gents was completed & handed over to Gadegaon Grampanchayat at the end of the year which is extremely benefitted to the entire village.

This initiative is a contribution towards Govt of India's "Swachha Bharat Abhiyan" which aims at one hundred percent eradication of open defecation practice prevailing in our country.

The toilet blocks are constructed keeping in view the Longevity of the building, Low maintenance cost, Water conservation, Hygiene, User convenience, Easy access and approach, Adequate water supply, Natural & solar lighting and Aesthetics

The toilet blocks after the construction are handed over to respective Grampanchayats for day-to-day operations. The cost of operation is borne by the Grampanchayat. This model of community toilet blocks has been very well accepted and appreciated by the society.

The Company aims to improve level of sanitation by providing know-how & funds for construction of scientifically designed village drainage system, waste water re-cycling and proper disposal of non-biodegradable waste material.

iii) Drinking water supply to villages :

- a) During summer season, the clean drinking water was supplied to water stressed villages in a radius of 30 km from Gadegaon plant after filtering & disinfecting the river water from our pond at the plant covering 22 water stressed villages of Jamner Tehsil , Dist : Jalgaon..
- b) During the period from April 16 to July 16 , 29.68 Million litres of water was distributed which benefitted over – 34,000 human population & more than 9000: Cattle and animals .

Company is supplying 1.0 lac liter water daily to meet the acute shortage of drinking water in Village of Gadegaon

iv) Deepening and strengthening of Mehrun Lake in Jalgaon city :

At the behest of the Mayor and Commissioner of Jalgaon Municipal corporation, your company took active part in the deepening and Strengthening of Mehrun Lake in the city of Jalgaon which is spread on an area of around 175 acres was developed by the Britishers more than 100 years back for supplying water to Jalgaon city and nearby villages. The lake was becoming un-usable & erosion of retaining walls caused huge loss of water during rainy season due to leakages. The company deployed earth moving equipments to excavate the soil which has resulted in generating additional storage capacity of the lake to the tune of 46.44 Million Liters of water.

v) Rural Education :

Digitalization of Anganwadi's was undertaken where children in the age group 2-1/2 to 6 years of age are enrolled. These Anganwadi's are run by the respective Zilha Parishads.

These Anganwadi's are instituted under Govt of India's Integrated Child Development Scheme (ICDS). Educational CD's & other utilities were made available for basic teachings in languages, mythology, history, culture, mathematics etc. which benefitted Anganwadis' children.

vi) LED lights at Gadegaon village :

With an aim to support Govt's mission of encouraging use of efficient lighting system, your company undertook the work of providing LED lights on all public streets of Gadegaon village .

As many as 100 nos of LED street lights have been provided which are expected to give a service life of minimum 10 yrs and 40 % reduction in energy consumption as compared to high energy consuming conventional lights which also caused problems due to higher cost of repairs and maintenance.

vii) Compound wall for ZP school :

At the request of education dept of Z.P. Jalgaon , a compound wall 1300 meters perimeter was built around the school premises for providing safety, hygiene & beauty in the village of Gadegaon.

viii) Parasbag Fencing at Anganwadi, Village Gadegaon

- a) Anganwadi Sevika's are engaged in developing Parasbag (small gardens) for growing green vegetables by using compost fertilizer and protecting the same so as to make it available as a supplement in the food served to the school going children. Fencing was provided to Parasbag for it's protection from Animals.
- b) This Parasbag got 2nd prize under "Parasbag development scheme" of Govt of Maharashtra at the hands of Hon'ble minister of Women & Child welfare, Govt Maharashtra

ix) Rain water harvesting for village Gadegaon :

Natural rain water harvesting was achieved by recharging an existing natural pond by constructing a channel between a nullah & pond in Gadegaon Grampanchayat land to fulfill the water scarcity of 2 bore wells owned by the Grampanchayat used to supply water to the village The above work has improved water table in the surrounding areas and lead to better water availability during summer months.

The company has set, an example for water re-charge and water shed management initiative.

x) Jalmandir at Jamner city :

Jamner bus depot which is located in the heart of the city is one of the busiest bus stand in the district of Jalgaon, and plying approx 30 - 35 thousand commuters every day .

These people were deprived of clean drinking water facility as no such facility was available. Your company constructed drinking water facility named as JALMANDIR in the premises of bus stand which will make clean & cool drinking water available round the clock .

This facility will not only help commuters but will also benefit masses visiting nearby Govt offices banks , hospitals etc.

The facility was inaugurated at the auspicious hands of Hon'ble minister of Irrigation & Medical Education , Govt of Maharashtra on 28th March, 2017.

Management Discussion and Analysis

1. OVERVIEW

The Country received good rainfall after two years of consecutive drought. This has led to increased food grain production and boosted horticulture activities. Overall the crude prices also remained below \$ 60 per barrel throughout the year. Large inflow of foreign exchange via FDI and FII routes have kept Rupee - \$ parity at a range bound level. In reality Rupee rates per \$ became better by March 2017 than start of the year in April 2016.

The cumulative effects of all these factors kept consumer price inflation low. The business situation was looking robust up to 1st week of November 2016. On 8th November 2016, Government has taken step to demonetize 86% of the currency out of circulation. This has slowed down business activities in several sectors where your Company is operating during four and half months of the previous year.

During those months, the Company's business was principally affected in the sectors where Company functions to meet agriculture and rural requirements. The agriculture segment plastics Pipe business, Cross Laminated film agricultural application and Material handling division had a negative volume growth of around 10% during that period. This has resulted in lower volume growth than in the previous year and could not meet the revised forecast made by the Company in January 2017.

Polymer prices except PVC resin remained range bound at affordable level. However, due to demonetization, the polymer consumption growth in the previous year was around 9% resulting in countrywide consumption of around 15 million tons as against 13.7 million tons in the previous year.

Increased shale gas exploration and lower growth worldwide in energy consumption due to slower growth in several countries and build up of new Polymer plant capacities in USA, China and Middle East will keep a lid on high Polymer prices. Going forward, this will lead to better demand growth of Polymer products.

The overall economy situation in our Country post demonetization looks robust. This will lead to higher growth in coming years for the Company as the Company's products mostly cater to domestic needs.

The business conditions look favourable due to execution of various initiatives announced and getting implemented by the Government which are as follows :-

1	Start of GST regime by 1st July 2017 which will integrate the Country's economy as one. This will facilitate increased share in business of organized players like your Company.
2	Affordable Houses for all by 2022.
3	Doubling the farmer's income by 2022 from the base year of 2016. This will boost rural economy where your Company is active.
4	Increased spending on irrigation, augmenting drinking water supply, strengthening sewerage and drainage net work will boost your Company's business and offers new business opportunities.

5	Several initiatives taken by Central and various State Governments boosting economy situation in many states will increase market potential for your Company.
---	---------------------------------------------------------------------------------------------------------------------------------------------------------------

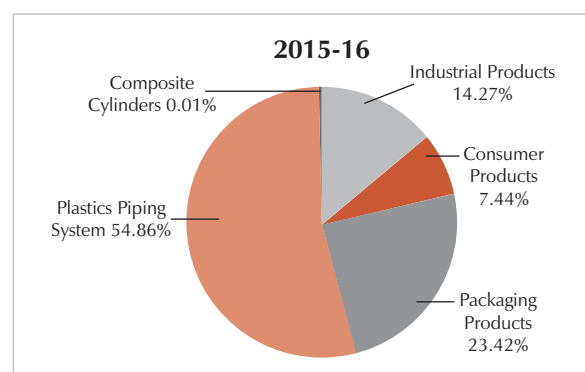

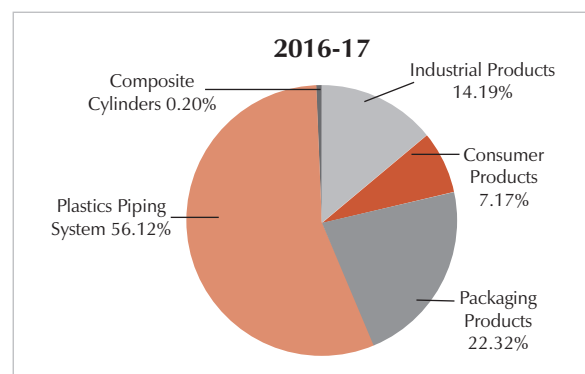

The Company is planning to augment capacities in existing plants and to put new plants to be ready to cater to larger requirements for Company's products after smooth transition to new GST regime.

2. PRODUCT GROUPS

The product groups of the Company have been recast as follows:

Group	Products
Plastics Piping System	uPVC Pipes, Injection Moulded PVC fittings and handmade fittings, Polypropylene Random Co-polymer pipes and fittings, HDPE Pipe Systems, CPVC Pipes Systems, Inspection Chambers and manholes. Bath fittings, Roto moulded Tanks and Fittings and Solvents
Consumer products	Furniture
Industrial Products	Industrial Components, Material handling System and Pallets – Roto moulded crates, garbage bins
Packaging Products	Flexible packaging film products, Protective Packaging Products, Cross Laminated Film products
Composite Products	Composite LPG Cylinders,

PRODUCT GROUP WISE SHARE IN TURNOVER FOR THE LAST TWO YEARS (% OF VALUE)

The net turnover (including other income) of the Company for the period under review was ₹ 4470 Crores (including ₹ 65 Crores by way of trading in other related products) as against ₹ 2971 crores (including ₹ 50 Crores by way of trading in other related products) during the previous year comprising of 9 months period.

The Company has sold 340906 tons of Plastic products as against 329350 tons of Plastic products in the corresponding period of previous year, reflecting a volume growth of 4% in product turnover.

The Company exported goods worth US \$ 13.50 million as against US \$ 12.30 million during the corresponding period of the previous year.

Profit before interest, depreciation and exceptional items and taxes during the period under review have been at ₹ 770 crores as against ₹ 472 crores during the previous year comprising of 9 months period.

3. COMPANY'S STRENGTH AND GROWTH DRIVERS

3.1 Manufacturing Sites

The Company is operating from 25 manufacturing sites operating in 11 States and Union Territories. The Company intends to start working on three new sites to put up plant in the current year. It is expected that the Company will be finalizing the location in South India and North Eastern States during this year and start activities to put up the plants at respective locations.

3.2 Distribution network

Your Company is committed to increase its reach throughout the country. To attain this objective, the Company has added further distributors in the past year. The distributors strength has gone up to 2973 Nos. by the end of March 2017 compared to 2699 Nos. by March 2016.

Wherever the Company could not find suitable distributors to buy and stock Company's products for re-distribution throughout the retail chain of that area, the Company started selling products directly to big retailers in that area. Selectively, the Company has strengthened its supply system to service those retailers in a cost efficient manner. The Company started this only very selectively.

Your Company's Supreme brand is now registered with a punch line " Supreme – People who know plastics best."

3.3 Growth Drivers

Your Company is strengthening its brand in Two ways. One by increasing expenditure on Advertisement through Electronic, Print media and participating in several Exhibitions in India and abroad along with large meets of plumbers, Dealers, Retailers and Architects. The Company participated in several exhibitions in India and Internationally last year. Secondly Company is taking legal recourse to contain counterfeit products in Plastics pipe System, XF Products and Furniture. Company assiduously works to address this menace.

4. OPERATIONAL PERFORMANCE

4.1 Plastics Piping Systems

The Company continues to grow Plastic Pipe System business, seeing its promising potential. The Company

is leader in this segment as it has the largest portfolio of products, which is being continuously increased, to offer more systems required in the economy.

The introduction of GST regime in the country is likely to be a game changer. It will disrupt the business during the year but in the long run it will benefit the Company. With the curb on informal economy, there is a likelihood of shift in business from unbranded players to branded players. This will lead to growth in the business of your Company in forthcoming years.

The business during the year had marginal growth with one of the reason being disturbed cash availability on account of demonetization, which affected the business for more than four months.

The Realty sector was overall in a negative growth phase and Infrastructure projects were also at a lower pace. The Government at the Centre has put the priority focus on Swachh Bharat Abhiyan, Sanitation and affordable houses to all and development of 100 smart cities on all India basis. This should give boost to demand of Company's products across the country in future.

The Company incurred Capex of about ₹ 213 crore in this year to achieve the objective of growth in the business. Majority of which has been put to use. Further investments are also planned in the current year.

New plant at Kharagpur has successfully commenced the commercial production of PVC, CPVC and HDPE Pipes. Encouraged with the response from market, the Company has put in place further expansion in the capacity of plant by installing new lines. The work of same is in progress and will be complete by October'17. The Company will be able to utilize full increased capacity of this plant for PVC Pipes from the month of November'17 onwards. The Company is also increasing the capacity of HDPE Pipe at Kharagpur plant to cater to increased demand.

Another Roto Moulding plant is being ordered at Kharagpur and should be in operation by August'17. The Company has already launched Overhead Water Tanks in various capacities from 500 liters to 5000 liters. The Loft tanks in various capacities are also being supplied. The Company has also launched variety of Septic Tanks in technological tie-up with a South African Company. All these initiatives are well received. With lot of encouragement from market the Company has embarked on further capacity expansion. The capacity is also being enhanced at Gadegaon facility for Roto Moulded Products. The Company has also introduced many varieties of Vertical and Modular underground storage Tanks. The Company is also exploring introduction of Chemical Tanks.

The production of Double Wall Corrugated HDPE Pipes has started from Gadegaon plant with BIS Certification. The Company plans to start production of Double Wall Corrugated Pipes at Kharagpur also. One line has already reached the site. It should be in operation by May'17 and thereafter some time will be required for BIS certification to start commercial production.

The Company has started manufacturing of ECO DRAIN pipes. BIS certification up to 400 mm for same is already received and it has gone into commercial production. The Company has also launched Multilayer Foam pipe up to 200 mm diameter with BIS Certification.

Philippines. The Company has also got permission to launch this product in UK market. The Company expects business potential for this product in overseas market.

The Company spent around ₹ 17 crores during the year on branding activities for its Plastic Piping Division through the following tools:

- Print Media through several monthly journals and dailies
- Participation in Exhibition locally and internationally
- Holding Architects/Plumbing Contractors/Builders/ Plumbers meet at various locations in the country
- Outdoor – Bus Panel, In-shop brands, Hoarding-wall painting
- Glow Signs and Flex Boards at Retail shops
- Arranging visit of Architects/ Plumbing Consultants/ Plumbers/ Farmers/ Builders to Company's Knowledge Centre at Gadegaon, Kochi and Malanpur.

4.2 Consumer Products

4.2.1 Furniture

During the year under review, this product faced tough times in November & December due to demonitisation. Furniture trade is highly dependent on Cash Sale to end customers and the liquidity crunch severely affected secondary sales at retail counters. Furniture being a low priority purchase on customer buying list, was one of the most adversely affected products. However, Sales of Furniture Division grew by 7% in value term and 4% in volume term vis a vis corresponding period of last year on y-o-y basis.

The growth in business is mainly attributed to Company's focus on increasing its distribution set up and wide acceptance of Supreme Furniture as a premium brand amongst customers. During the year, the Company increased its strength of channel partners from 746 to 814 and continues to increase its presence in unrepresented areas.

The Company has put up a Green Field Project to manufacture Blow Moulded Furniture at Kharagpur with an investment of around ₹ 24 Crores. The initial trial runs have been successful and the products have found good acceptance during test marketing in few select domestic markets. At present, almost all the decorators, banquets, tent houses use wooden folding tables which have several disadvantages. These tables can be supplemented with Blow Moulded Folding Tables over a period of time. The total market potential is large. Apart from this, at present, due to non availability of a convenient easy to store folding table for homes, the demand for such tables is suppressed. The Company believes with easy availability of such tables, the customers would be encouraged to keep a spare table at home for varieties of functional requirements.

The Company launched four models in blow moulded furniture segment and planned to launch seven models further between April to October this year.

The Company's focus on increasing its OPM yielded positive results. This has encouraged the Company to plan large investment in this business segment going forward.

GST is expected to be implemented from 1st July. In this product, the informal segment enjoys more than 40% share.

It is expected that after implementation of GST, the share of formal segment will go up over a period of time.

The Company introduced 7 new Models during the year to cater to varying needs of the customers and plans to introduce 4 new models shortly. It is widening its range of Storage Cabinets for offering a complete range of various sizes & shapes. The Company has also invested in a Single Piece two seater Sofa matching with its premium chair Model in order to offer the customers a set of a two seater Sofa, 2 chairs and a center table for the living rooms. The mould is under trials and is expected to be launched by end of first quarter.

The Company continues to focus on exploring export opportunities for its products. During the year, the Company participated in four international exhibitions. One of these exhibitions was for the third time and Company got good response from some of these exhibitions. The Company has started exporting to USA and has found good acceptance for some of its products. The Company's products were tested for various International Standards and were found suitable for Contract Use which is the toughest test. The process has made Company aware about various international requirements and helped in further improving the quality of its products. The Company feels confident about exporting its Injection Moulded Furniture & would continue to focus on developing the export market for the same.

4.3 Industrial Products

4.3.1 Industrial Components

The year started in the backdrop of improved business sentiments resulted out of gradual economic recovery because of various steady reforms initiated under new stable government. Demand revival, although at a slower pace initially, accelerated from second quarter in various segments including Automotive and Consumer Durable sector where Division is majorly supplying. The Division had projected 10% revenue and volume growth in both the sectors put together. Post demonetization, although demand in 2/3 wheeler and Commercial vehicles was affected, it was temporary for a few weeks and things are looking back positive again since January'17. The good monsoon also helped demand boost in Automotive and Appliances. Division grew by 13% and 11% respectively in Volume and Value terms over previous year. With encouraging microeconomic parameters, expected roll out of GST by July'17 and improved confidence in economy, the Company expects gradual expansion in demand in the current year.

Noida Plant revenue, which suffered due to relocation of two major customers, significantly got corrected and revenue bounced back to previous levels due to continued focus to develop new products and customers. Noida plant improved its customer base to have sizable spread in non-Appliances to counter seasonal demand volatility. Demand for AC segment improved considerably showing healthy growth. Company expects this segment to grow significantly and concentrating on new customer development in this product line. With the continued efforts in developing new Business Mix, Company expects steady growth at Noida plant in future. Steps have been taken to carry out layout changes and many other improvements to make the plant future ready.

gradual recovery at the end of FY 16-17 improving revenue at Talegaon Plant during last quarter. The business of few automotive models, which were acquired during previous years are yet to fructify at expected volumes due to slow ramp up. Supply of Cockpit Assembly started for commercial vehicles albeit at a slower pace. Talegaon Plant successfully completed development and productionising of a prestigious 2 wheeler project SR150 for Piaggio and is doing reasonably good in the market. This new model together with existing products of the customer are expected to improve revenue of Talegaon plant. Idle capacity of the plant is being utilized for Company's other divisions like cylinders and newly developed products for Company's plastic piping division.

Khushkhera Plant's sales both in volume and value terms remained almost flat. Demand of major OE Auto customers was a mixed basket. Supplies have been successfully established for one of the prestigious SUV model of Honda Car, BR-V. Supplies for new Model of Honda City for both domestic and export requirements have been successfully met. Development process for a New Mini SUV (WR-V) for Honda Car is complete and Mass production of this model just started during Feb/March'17. Development is on for several other models for Maruti Suzuki and Honda. Company has been continuously acquiring new business from its existing customers for their new vehicle programme. Company expects good long-term prospects from newly acquired businesses. Lots of steps are being initiated to re-orient and further streamline the manufacturing operations so as to be ready for further growth in auto sector.

Chennai Plant's Volume and Value growth was encouraging for with good growth in Appliances customers like Samsung and BSH. Company expects good growth with its appliances customers in years to come. The prospects in automotive sector for this unit are looking bright and it is expected to form a significant portion of plant revenue. The Capacity utilization of the plant is at optimum level since last two years even after adding new machines to the possible extent considering space constraints. Company has planned to realign its Customer-Mix for more productive capacity utilization.

Pondy Plant achieved a healthy volume growth driven by good demand for Whirlpool Washing Machines. The drive taken during previous couple of years to automate the plant for manpower rationalization, consistency in quality, improving productivity, has matured. Company has initiated some layout changes for optimum utilization of space, improving safety standards and augmenting plant capacity.

Durgapur Plant also achieved healthy volume growth due to maturation of the new businesses acquired during previous year and growth in product line of existing customers. Company has added another customer in auto sector and business has already started. Company expects better growth during this year from all the customers of this plant. Business of Water Purifiers is also increasing gradually and expected of good volume revival during the current year as evident from encouraging projections.

Company has taken drive to rationalize and reorient the machine capacities at its various locations to align it with the changed Product- Mix. While doing so, new machines and equipment being added are equipped with the latest Technology, Energy efficient and designed for Good

repeatability for consistent quality. Wherever feasible and cost-effective, Automation is being considered to for better productivity and quality. All these initiatives will ensure better Quality, Productivity, Safety, Energy conservation and Cost optimization. It is helping the Company to negate the impact of inflation due to various manufacturing cost increases and cost reductions required to be given year on year to customers to remain competitive. The various such initiatives of the Company would support Environment and help Go Green.

Continuous focus on employee engagement initiatives is helping Company to enhance its Human Capital.

Overall rating of the Company by its customers meets or exceeds their expectations. Company is considered a highly dependable and valuable supplier. Company received various Awards and Recognitions from time to time from its customers for its support in Quality, Cost, Delivery and New product development, Overall Support, Best Practices etc. All employees are constantly re-oriented to ensure utmost focus on Customer Satisfaction.

The Journey towards excellence is being cultivated as a culture and will be continuous. Efforts are being accelerated to increase customer and product base, bring in new technology, Automation, Effective cost management to ensure sustained growth with profits.

4.3.2 Material Handling Products

Material handling division (MHD) has performed reasonably well during the year under review, The Industrial crates, pallets and Bottle Crates have grown over last year whereas the Fruit and vegetable crates business has shown steep de growth.

The Division mainly caters with the following product range.

- 1) Crates for industrial, Retail and Warehousing.
- 2) Dairies, Fisheries and Fruit & Vegetables.
- 3) Bottle crates for Soft drink and beverages industry.
- 4) Pallets for Warehousing and Multipurpose use.
- 5) Roto moulded Crates, Garbage bins and Pallets

In Industrial Crate product line, which services the customer base from Automobile, Engineering, FMCG, and Appliances sector etc. has grown 7.3%, in revenue and volume terms. The division has grown around 7% in both volume and value terms in line with growth in user sectorial Industries.

Your Company has developed a specially designed crate model to service few large customers and has been successful in obtaining sizable business during the year under review. The division is ensured for a sustained business from these customers in next few years. Company has also developed few specially designed crates for booming retail sector and prospect of good business from some big customers is expected in the current year. The customized fabricated solutions in Crates especially for Automobiles Industry has been promising and expected to grow with capacities expansion of major Automobile OEMs.

In Dairy business The Division has been moderately successful with selected private dairies especially in North and East region and expect this success to consolidate in South and West region as well.

The Division has registered a volume growth of 11% and a revenue growth of around 7% in Pallets, but the scenario in Injection molded pallets has been sluggish and the momentum and growth has not been to the extent expected. The major reason for this could be less purchases of pallets by government agencies; few regular and consistent customers have also deferred the pallet purchase to next year.

Your Company understands well the utility and the value of the pallets provided to the users especially in supply chain and warehousing segment and it continues to enhance value to its customers by launching newer user-friendly models.

Company perceives the potential of Roto-Moulded crates, dustbins and pallets and continue to invest in new models. It has planned existing manufacturing unit's expansion. Today with four units operational with Roto Moulding at customer friendly locations, Company expects to achieve manifold growth in Roto Moulded Products in years to come,

With Swachh Bharat mission pronounced in most states, the long range of Company's Garbage bins, Pallets and continued customized additions will yield greater results to Company. The Company expects growth to continue and plans to double the sales from present level in the next year itself.

The business of bottle crates has re-bounced registering a growth of over 26%. Company introduced models desired by a soft drink major and has an assured business next year as well with an expectation of over 20% sales growth next year.

The Company follows strict quality norms and adheres to sell quality MHD products and not to use post consumer recycled material for lowering the pricing. The fruit and vegetable crate segment witnessed a dismal performance but your Company refrained from selling compromised quality products which is prevalent with manufacturing of crates with recycled raw material in this fruit & vegetable segment.

The Demonetization affected some segments in the third and fourth quarter but Company overcame the affect and paved a way of higher growth in the month of March 2017.

Distribution spread has been your Company's strength, with 223 channel partners. The Company is continually strengthening its presence in strategic marketing segments and geographical areas which are still not adequately covered. Company has plans to induct segment specific dealers to its network during the current year to further increase its reach.

4.4 PACKAGING PRODUCTS

4.4.1 Packaging Films

The Performance Films Division had a positive growth in the current year.

Overall sale was 7596 tons in the current year vis a vis 7464 tons sale in the previous year. The growth in tonnage was 2%. However the sale was higher at ₹ 129 cr in the year 16-17 as compared to ₹ 113 cr in the corresponding period of previous year.

The increase in value was achieved from the sale of high value added products like high gloss film, thermoforming films and pouches, bulk bags & exports.

The division has developed a High Clarity film. The Company has conducted trials and have received positive feedback from customers. The film will have several applications in thermoforming trays, pouches and may also substitute 2/3 ply laminates. The Company believes that the division will be able to create a market for these products.

The Company has reduced its dependence on oil films and introduced several high value added products. It intends to reduce the dependence further on oil films. The customers have shown confidence in the quality of Company's films and service.

During the year under review, exports stood at 1028 tons as against 800.42 tons in corresponding period of previous year. The Company expects to boost its export further in the current year.

Competition has been increasing with new players entering the industry and existing players increasing their capacities. The division's sales have been consistent and customer base could be maintained by virtue of Company's quality of products & high service standards. As the capacity utilization of the division remains quite high, the division also plans to expand its capacity soon.

4.4.2 Protective Packaging Products

Protective packaging division (PPD) recorded 9% growth in value & 6% in volume during the year under review over the corresponding period of previous year.

The division has started commercial production of acoustic foams developed by using unusable cross link foam scrap at its Urse unit. The Company expects this product line to grow well. The Company intends to install similar facility at other Plants. The Company hopes to achieve reduced sale of cross-linked scraps from the present level of 16%.

The Company's ever expanding range of foams have been further enhanced by imported foams. The Company aims to be a one shop stop for foam products. Some of these foams will be manufactured by the Company when they reach a critical mass.

The Marketing and the R & D team is continuously focussed on new application and product development. The division has created a core team of Marketing and R & D Officers under the supervision of senior management with an objective to create value added businesses through new application and product development process, thereby, giving cost effective solution to customers as well as improve its margins.

The division has introduced a new range of Consumer products specially focussed on children education, sports, health sector and interior decoration. The products have been well received. A separate marketing team has been set up for the above product. The products have been manufactured conforming to all tests parameters which are specified by international authorities for similar applications.

A new and larger conversion facility with many sophisticated equipments has been started at URSE for the production of above range of products, along with Company's regular fabricated products.

This division's applications are divided in Packaging, Civil and Insulation Sector.

Packaging

The division has increased its focus on converted items and premium range of product to counter competition from local manufacturers.

Kharagpur unit which started in Dec'2015 was unable to meet demand in peak month hence capacity is being enhanced by 720 MTPA. Further de-bottlenecking, will enhance this capacity by an additional 1700 tonnes the year after.

A new bubble film plant of 1250 MTPA has been installed in Hosur to cater to the increasing market demand.

The division is exploring the possibility of shifting existing facility from Hosur unit 1 to Unit 2 in near future. This will bring a synergy in management and reduce costs.

EVA block foam business for both single and two stage is constantly growing. Several new products were developed to meet specific requirement of customers. The division has expanded its capacity during the year and expected to expand further during the current year.

A new range of premium colour certified products have been introduced, which has evoked positive response. This may further enhance EVA block foam business of the Company.

A new Tube/Profile extruder was installed at Hosur Unit 1 with enhanced features to meet demand in South Zone.

EVA foam injection moulding has been installed at Malanpur and the products will be developed with technological support from Taiwan. These products will enhance offering of a larger range of products in the B to C segment and also to other B to B customers.

The Division is constantly working to increase its base of Channel partners.

Civil

DURABOARD is now considered the standard product for expansion joint filler, in both pvt and public sector. Also Military Engineering Service (MES) has approved this product. In view of increased infrastructure spend; the division expects a good growth in this year.

DURAFLOOR protector : Foam laminated with XF film which is used for the protection of finished flooring during interior work, is now finding increase usage in large Projects as well as small homes. The sales network for this product is continuously expanding. Overall, this vertical should enjoy good growth in this year.

All other products in this vertical are also growing.

Insulation

The division has lost orders in many projects due to lower price offered by competitors. New plants have come at several locations. Many of the competitors are supplying sub standard products against declared tender documents and offering lower prices which are against the policy of your Company. The marketing team is focused to create awareness amongst customer and also to improve its reach. Besides, to counter this unethical competition, our R&D team has successfully developed new range of products at lower costs. This has resulted in improving business in Second half of the year.

NBR tube business is growing well. The Company's products compare in quality with international products & are superior to most indigenous manufacturers. This has resulted in good business growth. The existing plant capacity has been enhanced by in-house technological development from 560 tonnes to 680 tonnes. The division has finalised the NBR Foam sheet production line, which will be installed in Malanpur in this year with a saleable capacity 1950 MTPA. The plant also will be capable of manufacturing higher size tubes which are in demand in many projects. Upon commissioning of this line the division will be capable of offering a wider range of Insulation products.

The division is making some headway in acoustic insulation by identifying new applications.

Technology

R&D team has successfully developed a new equipment and process for reduction of Foam curing cycle (by nearly 3 days) which has resulted in better utilisation of Foam capacity.

During the year the in house R&D team has developed new soft cross linked polyethylene foams matching hitherto exclusive imported product for many local projects. It has also designed and developed improved design of tube and profile extruder for Hosur unit.

As mentioned earlier, the R & D team is working in tandem with application development team to constantly develop foam with better properties.

4.4.3 Cross Laminated Film

The Business of Cross Laminated film and products had a small growth despite tough and testing conditions caused by demonetization. The Company sold 20167 tons of products against 20071 tons during the corresponding previous period. Exports fell from 1349 tons to 1153 tons.

The domestic market grew by 2% in volume during the year under review. Demonetization had a big toll on the domestic business growth. Government's decision to invalidate high value currency amounting to 86% of the value of cash in circulation led to severe cash crunch, disrupting supply chain and crippling demand for company's products. The impact was more severe in the agricultural segments of the country where Company's products are sold. The effect of demonetization lasted for almost 4 months & dissipated by middle of March. With little cash at their disposal the customers spending were restricted for day to day essential items bringing the domestic business for this product to standstill during those 4 months. This has negated the growth made in the first 7 months.

Demonatisation was mainly aimed at shrinking informal economy in India. With the likely beginning of GST regime from 1st July, 2017 these sectors may feel the heat in future. The tarpaulin business in India has many players from informal sector. Over a period it is expected that share of organized players will increase.

35GSM Silpoly Liner business was impacted by demonetization and it witnessed de-growth in the year under review. The Company is planning to promote 35GSM in black color as Mulching film. Mulch film used to suppress weeds and conserve water in crop production are in good demand throughout the Country. There are newer

applications being developed from 35GSM film which may reverse de-growth trend in the current year.

India Meteorological Department has predicted normal rainfall for this year giving positive signals to farm sector and overall economy. This may boost the demand for Company's products.

Though the exports have gone down there are some positives to be taken forward.

The Company has made a maiden entry in the USA market. The first consignment of tarpaulins was shipped in the month of March to buyer in USA who has made arrangements to stock these goods for sale through online websites. The Company is also in the final stages of negotiations with chain stores in USA who can sell Company's tarpaulins through stores and online websites. The Company has entered new markets of UK, Denmark & Australia which may improve business in the next year. The Company is aiming to get foothold in other markets like South East Asia, Africa, Russia and South America.

The Company sold 938 tons of Cross Line (XL) Bonded Film against 501 tons during the previous corresponding period. The Company has increased the capacity substantially and will make this product in various thicknesses. This product has patent protection and has improved properties. By making this product available in almost all the thicknesses, the Company will educate the users not to be cheated by lookalike products with very low comparable strength.

The Company has developed several additional fabricated applications other than Tarpaulin from the film. The share of such products in overall business is gradually growing. The Company will be introducing Fire Retardant and Corrosion Resistant film in this year.

The technical collaborator of the Company is close to perfecting the technology of cross plastic film. They are sure of developing a perfect product process and are in the process of identifying the machine manufacturers for the new process. The Company is hopeful of putting up facility to manufacture this product at Muvala in near future.

4.5 Construction Business

The year under review did not witness any further monetisation of its commercial premises inventory although potential enquiries continued. Company's fully operational commercial complex has about 63,848 sq. ft. area yet to be sold out which is expected to boost Company's cashflow anywhere between ₹ 100 to ₹ 120 crores at prevailing market prices.

Commercial premises market sentiments are improving with limited construction in the segment. Premises of your Company is strategically located in the heart of entertainment hub of the town and supported with well laid out metro rail and road connectivity. The Company's premises are well equipped with best of the features and facilities and one of the best corporate address in Mumbai Suburbs. Company is hopeful of fructifying the sale of remaining area during the current year.

4.6 New Initiatives

4.6.1 Composite LPG Cylinder

Your Company has signed MOU for supply of 250,000

Composite LPG Cylinders and received initial order for 30,000 pcs from its customer in Bangladesh. Supply of initial order quantity has been completed in last quarter of year under review. The same has been produced on continuous basis with 90% plant efficiency which boosted the morale and also given good experience of plant running for the first time.

Your Company has also executed initial educational order received from Hindustan Petroleum Corporation Ltd. (HPCL) for two of the sizes. However, launch of the test marketing of the same in domestic market is delayed by HPCL due to BIS standard formalisation which is now in place and Company expect HPCL to start introductory trial runs soon. The Company is hopeful of getting good response from domestic consumers once the product is offered to them by Indian Oil Marketing Companies. Apart from OMCs, Company is also exploring consumer behavior in domestic market with a small beginning by supplying these cylinders to private Gas Distribution entities.

Company has also made breakthrough in other overseas markets and some quantities have been supplied to various different countries. There are many potential enquiries and discussions at advanced stages, outcome of which would make present production capacity a restricting factor and your Company may look for further expansion of capacities at appropriate time.

Your Company is also developing new sizes to add varieties to its offerings and is engaged in new developments to minimize product costs. Company continues to get assistance from its technology partner for product development. Company actively participates in various international exhibitions related to this product. It continues to increase its market reach with better representative network across the globe.

5. FINANCE

A brief on borrowing levels and finance cost is given below:-

Particulars	Measure	F.Y. 2016-17	F.Y. 2015-16 (9 Months)
Net borrowing level at the end of the year	₹ In crores	228	412
Average Monthly Borrowings	₹ in crores	382	401
Interest & finance charges	₹ In crores	30	29

Financial cost as a % of Turnover	%	0.68	0.98
Total Debt : Equity Ratio		0.15	0.34

The main factors resulting in reduction in the Interest and Finance charges during the year under review were:

- With crude and polymer prices remaining lower/ range bound and adequate availability of supplier's credit, the Net Working capital requirements were at a lower level,
- Repayment of certain Loans bearing

Independent Auditor's Report

To The Members of
The Supreme Industries Limited

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **THE SUPREME INDUSTRIES LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, in which are incorporated the financial statements of various branches located in India have been audited by the branch auditors.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2017, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Other Matter

Opening balances have been considered based on the audited financial statements prepared under previous Generally Accepted Accounting Practices (Previous GAAP) issued by the other auditors whose un-qualified audit report dated April 21, 2016 have been furnished to us. The differences arises from transition from previous GAAP to Ind AS have been derived from such audited financial statements.

Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India, in exercise of powers conferred by sub-section 11 of section 143 of the Act, we give in the **Annexure A** attached hereto our comments on the matters specified in the paragraphs 3 and 4 of the said Order.
- As required by Section 143(3) of the Act, we report that:
 - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Annexure B to the Independent Auditor's Report

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF THE SUPREME INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of **THE SUPREME INDUSTRIES LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the financial statements for the year ended 31st March, 2017

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 Company Overview

The Supreme Industries Limited ("the Company") is public limited Company incorporated and domiciled in India and has registered office at 612, Raheja Chambers, Nariman Point, Mumbai 400 021. It is incorporated under the Indian Companies Act, 1913 and its shares are listed on the Bombay Stock Exchange Limited and National Stock Exchange in India.

The Supreme Industries Limited is one of the leading plastic products manufacturing company in India having 25 manufacturing facilities spread across the country. Company is engaged in manufacturing various plastic products like Plastic Piping System, Industrial and Engineering Molded products, Storage and Material Handling Products, Plastic Molded Furniture, Protective Packaging Products, Cross Laminated Film and products thereof, Performance packaging Film and Composite LPG Cylinders etc.

1.2 Basis of Accounting

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified under the Companies (Indian Accounting standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendments Rules 2016 prescribed under section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014.

The financial statements of the Company are prepared and presented on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- Certain financial assets and liabilities are measured at Fair value (refer accounting policy on financial instruments - note 1.9 below.
- Defined Benefit and other Long term Employee Benefits - Refer note 1.11 below.
- Derivative Financial instruments – Refer note 1.9 below.

1.3 Use of Estimates and Judgements

The preparation of the financial statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

1.4 Property, Plant And Equipment & Intangible Assets

Property, Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Costs include freight, import duties, non-refundable purchase taxes and other expenses directly attributable to the acquisition of the asset.

Leasehold land is stated at historical cost less amounts written off proportionate to expired lease period.

Intangible Assets

Intangible assets are held on the balance sheet at cost less accumulated amortisation and impairment losses. Intangible assets developed or acquired with finite useful life are amortized on straight line basis over the useful life as specified below:

- Computer Software and Licenses – 3 to 4 years
- Right to Use– 5 years

Capital Work-in-progress and Pre-operative Expenses during Construction Period

Capital Work-in-Progress includes expenditure during construction period incurred on projects under implementation treated as pre-operative expenses pending allocation to the assets. These expenses are apportioned to the respective fixed assets on their completion / commencement of commercial production.

Notes to the financial statements for the year ended 31st March, 2017

Depreciation/amortisation:

Depreciation is provided on the straight line method applying the useful lives as prescribed in part C of Schedule II to the Companies Act, 2013.

The range of estimated useful lives of Property, Plant & Equipment's are as under:

Category	Useful Life
Buildings (including roads)	3- 60 Years
Plant & Equipment*	7- 18 Years
Moulds & Dies*	2- 6 Years
Furniture & Fixture	10 Years
Office Equipment	3 - 5 Years
Vehicles	8 - 10 Years

* Useful life of Plant & Equipment of Plastic Piping System Division, Protective Packaging Division and Cross Laminated Film Division and Moulds and Dies are determined based on the internal assessment supported by independent technical evaluation carried out by external valuers.

The management believes that the useful life as given above the best represent the period over which the management expects to use these assets. The Company reviews the useful lives and residual value at each reporting date.

Depreciation on assets added/sold or discarded during the year is being provided on pro-rata basis up to the date on which such assets are added/sold or discarded.

Leasehold Land is amortized over the period of lease.

Assets costing up to ₹ 10,000 each are depreciated fully in the year of purchase.

Gains/Losses on disposals/de-recognition of property, plant and equipment are determined by comparing proceeds with carrying amount and these are recognized in statement of profit & Loss.

1.5 Impairment of Non Financial Assets

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial assets are impaired. If any such indication exists, the Company estimates the amount of impairment loss. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

1.6 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefit will flow to the Company and the revenue can be measured reliably.

Sale of goods:

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to the buyer either at the time of dispatch or delivery or when the risk of loss transfers. Export sales are recognized based on the shipped on board date as per bill of lading, which is when substantial risks and rewards of ownership are passed to the customers.

Revenue from sale of goods is net of taxes and recovery of charges collected from customers like transport, packing etc. Provision is made for returns when appropriate. Revenue is measured at the fair value of consideration received or receivable and is net of price discounts, allowance for volume rebates and similar items.

Claims / Refunds not ascertainable with reasonable certainty are accounted for, on final settlement and are recognized as revenue on certainty of receipt on prudent basis.

Rendering of services:

Revenue from sale of services are recognized when the services are rendered.

Other Income

Dividend income on investments is recognised when the right to receive dividend is established.

Interest income is recognized on a time proportionate basis taking into account the amounts invested and the rate of interest. For all financial instruments measured at amortised cost, interest income is recorded using the Effective interest rate method to the net carrying amount of the financial assets.

1.7 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

Government grants related to revenue are recognised on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Such grants are deducted in reporting the related expense. When the grant relates to an asset, it is recognized as income over the expected useful life of the asset.

In case a non-monetary asset is given free of cost it is recognised at a fair value. When loan or similar assistance are provided by government or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is recognized as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received.

1.8 Inventories

Inventories includes Raw Material, Work-in-Progress, Finished goods, Stores & spares, Consumables, Packing Materials, Goods for resale and commercial premises are valued at lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw Material and Components – Cost include cost of purchases and other costs incurred in bringing the inventories to their present location and condition. Cost is determined using identified lot basis / First in first out (FIFO) basis.

Finished/Semi-Finished Goods – cost includes cost of direct material, labor, other direct cost and a proportion of fixed manufacturing overheads allocated based on the normal operating capacity but excluding borrowing costs. Cost is determined on weighted average cost basis

Stores, Spare Parts, Consumables, Packing Materials etc. – cost is determined on FIFO basis.

Goods for Resale – cost is determined on FIFO basis

Commercial Premises – Cost includes cost of land, premium for development rights, construction cost, materials, services and allocated interest and expenses incidental to the construction business.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

Adequate allowance is made for obsolete and slow moving items.

1.9 FINANCIAL INSTRUMENTS

Financial assets - Initial recognition

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

Subsequent measurement

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

(a) Measured at amortised cost:

A financial asset is measured at amortised cost, if it is held under the hold to collect business model i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding. Amortised cost is calculated using the effective interest rate ("EIR") method by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, gain or loss, if any, is recognised to Statement of Profit and Loss.

Notes to the financial statements for the year ended 31st March, 2017

(b) Measured at fair value through other comprehensive income (FVOCI):

A financial asset is measured at FVOCI, if it is held under the hold to collect and sell business model i.e. held with an objective to collect contractual cash flows and selling such financial asset and the contractual cash flows are solely payments of principal and interest on the principal outstanding. It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in the OCI is reclassified from the equity to Statement of Profit and Loss.

(c) Measured at fair value through profit or loss (FVTPL):

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity Instruments:

All investments in equity instruments classified under financial assets are subsequently measured at fair value. Equity instruments which are held for trading are measured at FVTPL.

For all other equity instruments, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument shall be recognised in Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in the OCI. Amounts recognised in Other Comprehensive Income (OCI) are not subsequently transferred to Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised in Statement of Profit and Loss.

Impairment

The Company recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable including that which is forward-looking.

The Company's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Company does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables.

The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets other than trade receivables, the Company recognises 12-month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12 months ECL.

The impairment losses and reversals are recognised in Statement of Profit and Loss. For equity instruments and financial assets measured at FVTPL, there is no requirement for impairment testing.

De-recognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Financial Liabilities

Initial Recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial

liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Company's financial liabilities includes trade and other payables, loans and borrowings including bank overdrafts and derivative instruments.

Subsequent measurement

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Loans & Borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using EIR method. Gains and losses are recognized in profit & loss when the liabilities are derecognized as well as through EIR amortization process.

Financial Guarantee Contracts

Financial guarantee contracts issued by the Company are those contracts that requires a payment to be made or to reimburse the holder for a loss it incurs because the specified debtors fails to make payment when due in accordance with the term of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Subsequently the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative adjustments.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments & hedge accounting

The Company uses derivative financial instruments, such as forward foreign exchange contracts, interest rate swaps, cross currency interest risk swap to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The Company designates their derivatives as hedges of foreign currency risk associated with the cash flows of highly probable forecast transactions and variable interest rate risks associated with the borrowings.

The Company documents at the inception of hedging transaction the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset cash flow of hedged items. The Company documents its risk management objective and strategy for undertaking various hedge transaction at the inception of each hedge relationship.

Cash flows hedge that qualify for the hedge accounting

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit & loss, except for the effective portion of cash flow hedge which is recognized in other comprehensive income and presented as separate component of equity which is later reclassified to statement of profit & loss when the hedge item affects profit & loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.10 FAIR VALUE MEASUREMENT:

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

Notes to the financial statements for the year ended 31st March, 2017

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.11 EMPLOYEE BENEFITS

The Company has following post-employment plans:

- (a) Defined benefit plans such a gratuity and
- (b) Defined contribution plans such as Provident fund & Superannuation fund

a) Defined-benefit plan:

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of defined benefit obligations at the end of the reporting period less fair value of plan assets. The defined benefit obligations is calculated annually by actuaries through actuarial valuation using the projected unit credit method.

The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- (a) Service costs comprising current service costs, past-service costs, gains and losses on curtailment and non-routine settlements; and
- (b) Net interest expense or income

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in employee benefit expenses in the statement of the profit & loss.

Re-measurement comprising

- (a) Re-measurement of Actuarial(gains)/losses
- (b) Return on plan assets, excluding amount recognized in effect of asset ceiling
- (c) Re-measurement arising because of change in effect of asset ceiling

are recognised in the period in which they occur directly in Other comprehensive income. Re-measurement are not reclassified to profit or loss in subsequent periods.

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Company determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

b) Defined-contribution plan:

Under defined contribution plans, provident fund, the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. Defined Contribution plan comprise of contributions to

the employees' provident fund with the government, superannuation fund and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Company's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers.

c) Other employee benefits:

- (a) Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date determined based on an actuarial valuation.
- (b) Undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the period when the employee renders the related services.
- d) Expenses incurred towards voluntary retirement scheme are charged to the statement of profit and loss as and when incurred.
- e) Other benefits comprising of discretionary long service awards are recognized as and when determined.

1.12 LEASES

A lease is classified at the inception date as a finance lease or an operating lease. Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss

Other leases are treated as operating leases, with payments are recognised as expense in the statement of profit & loss on a straight-line basis over the lease term.

1.13 FOREIGN CURRENCY TRANSACTIONS

a) Initial Recognition

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

b) Measurement of Foreign Currency Items at the Balance Sheet Date

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

1.14 TAXES ON INCOME

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items that are never taxable or tax deductible. Tax provisions are included in current liabilities. Interest and penalties on tax liabilities are provided for in the tax charge. The Company offsets, the current tax assets and liabilities (on a year on year basis) where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis or to realise the assets and liabilities on net basis.

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets are not recognised where it is more likely than not that the assets will not be realised in the future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Notes to the financial statements for the year ended 31st March, 2017

Minimum Alternative Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income-tax during the specified period.

1.15 RESEARCH AND DEVELOPMENT EXPENDITURE

Research costs are expensed as incurred. Product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, further economic benefits are probable, the Company has an intention and ability to complete and use or sell the product and the costs can be measured reliably.

1.16 PROVISIONS AND CONTINGENCIES

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.17 CASH AND CASH EQUIVALENTS

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

1.18 CASH FLOW STATEMENT

Cash flows are reported using the indirect method where by the profit before tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

1.19 BORROWING COST

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

1.20 EARNINGS PER SHARE

Basic EPS is arrived at based on net profit after tax available to equity shareholders to the weighted average number of equity shares outstanding during the year.

The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless impact is anti-dilutive.

1.21 OPERATING SEGMENT

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM).

The Company has identified its Managing Director as CODM which assesses the operational performance and position of the Company and makes strategic decisions.

1.22 EXCEPTIONAL ITEMS

When an item of income or expense within profit or loss from ordinary activity is of such size, nature or incidence that their disclosure is relevant to explain the performance of the Company for the year, the nature and amount of such items is disclosed as exceptional items.

30 FIRST-TIME ADOPTION OF IND AS

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 1st, 2016, with a transition date of July 1st, 2015. The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements for the year ended 31st March, 2017, be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity).

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Optional Exemptions

(a) Deemed Cost

Ind AS 101 permits to measure all its property, plant & equipments at their previous GAAP carrying value i.e. being deemed cost represented by Gross Block reduced by accumulated depreciation on July 01, 2015.

Notes to the financial statements for the year ended 31st March, 2017

₹ in Lacs

(b) Investments in subsidiaries and associate

The Company present separate financial statement wherein Ind AS 27 requires it to measure its investment in subsidiaries and associate either at cost or in accordance with the Ind AS 109. The Company at first time adoption has measured such investment at cost in accordance with the Ind AS 27, wherein it has option to measure the investments in its separate opening Ind AS balance sheet at cost as determined in accordance with Ind AS 27 or deemed cost. Deemed cost shall be fair value at the entity's date of transition to Ind AS in its separate financial statement or previous GAAP carrying amount as on that date. The Company has adopted deemed cost being previous GAAP carrying amount as on date of transition.

B. Mandatory Exceptions

(a) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies).

Ind AS estimates as at 1 July 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVTPL or FVOCI; and
- Impairment of financial assets based on expected credit loss model.

(b) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- I. Reconciliation of Balance sheet as at July 1, 2015 and March 31, 2016
- II. Reconciliation of Statement of Profit and Loss for the year ended March 31, 2016
- III. Reconciliation of Equity as at July 1, 2015 and March 31, 2016

The presentation requirements under Previous GAAP differs from Ind AS and hence Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

Notes to first time adoption

Note 1: Proposed Dividend

Under the previous GAAP, dividend proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as subsequent events. Accordingly, provision for proposed dividend including dividend distribution tax was recognised as liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting.

Note 2: Remeasurements of post employment benefit obligations

Under the previous GAAP, cost relating to post employment benefit obligations including actuarial gain/losses were recognised in Profit & Loss. Under Ind AS, actuarial gain/losses on the net defined benefit liability are recognised in other comprehensive income instead of profit & loss.

Note 3: Security deposit

Under the previous GAAP, interest free lease security deposits (that are refundable in cash on completion of lease term) are recorded at transaction price. Under Ind AS All financial assets are required to be recognised at fair value. Accordingly, the Company has fair valued the security deposits and the difference between the fair value and transaction value of the security deposit has been recognised as prepaid rent.

Note 4: Borrowings

Ind AS 109 requires transaction costs incurred towards borrowings to be deducted from the transaction value on initial recognition. These cost are recognised in profit & loss over the tenure of borrowings as a part of the interest expense by applying effective interest rate method.

Note 5: Fair Valuation of Investments

Under previous GAAP, investment in equity instruments were classified into long term and current investments. Long term investments were carried at cost less provision other than temporary in nature. Current investments were carried at lower of cost or fair value. Under Ind AS, these investments are required to be measured at fair value either through OCI (FVTOCI) or through Profit & loss (FVTPL). The company has opted to fair value these investments through Profit & loss (FVTPL). Accordingly, resulting fair value change of these investments have been recognised in retained earnings as at the date of transition and subsequently in the profit & loss account for the year ended March 31 2016.

Note 6: Discount

Under previous GAAP, the Company accounted for revenue net of trade discounts, sales taxes and excise duties. Under Ind AS, the Company will recognise revenue at fair value of consideration received or receivable. Any sales incentive, cash discounts or rebates in any form given to customers will be considered as reductions from revenue.

Note 7: Derivative Instruments

Under previous GAAP, premium paid on the forward contracts were amortised over the period of the Forward contracts. Under Ind AS, such forward contracts have been fair valued through profit & loss.

Note 8: Deferred sales tax

Under previous GAAP, deferred sales tax represent sales tax liability of the Company for sales effected during the sales tax deferral scheme period. As per the Scheme the same is payable over 15 Years. Accordingly, deferred sales tax has been considered as borrowing. Under Ind AS 109, Financial Instruments requires all financial liabilities to be recognised initially at fair value which is normally the transaction price. In case of interest free loan, fair value is determined in accordance with the Ind As 113 'fair value measurement' as the transaction price does not represent the fair value. Accordingly, the difference between the fair value and transaction price is recognised as gain considering it in the nature of government grant and credited to the equity.

Note 9: Deferred taxes

Under previous GAAP, deferred taxes were recognised based on Profit & loss approach i.e. tax impact on difference between the accounting income and taxable income. Under Ind AS, deferred tax is recognised by following balance sheet approach i.e. tax impact on temporary difference between the carrying value of asset and liabilities in the books and their respective tax base.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

33 RISK MANAGEMENT

Financial risk management objectives and policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's activity expose it to market risk, liquidity risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, derivative financial instruments such as foreign exchange forward contracts, foreign currency/and interest rate swaps are entered to hedge certain foreign currency risk exposures to hedge variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

A. CREDIT RISK

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- Actual or expected significant adverse changes in business
- Actual or expected significant changes in the operating results of the counterparty
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- Significant increase in credit risk on other financial instruments of the same counterparty

The Company categorises financial assets based on the assumptions, inputs and factors specific to the class of financial assets into High-quality assets, negligible credit risk; Quality assets, low credit risk; Standard assets, moderate credit risk; Substandard assets, relatively high credit risk; Low quality assets, very high credit risk; Doubtful assets, credit-impaired.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than one year past due. Where loans or receivables have been written off, the Company continues engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss.

Provision for expected credit losses:

		Basis for recognition of expected credit loss provision

Assets where the counter-party has strong capacity to meet the obligations and where the risk of default is negligible or nil	High-quality assets, negligible credit risk	12 month expected credit losses	12 month expected credit losses	Life time expected credit losses (simplified approach)
Assets where there is low risk of default and where the counter-party has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past	Quality assets, low credit risk			
Assets where the probability of default is considered moderate, counter-party where the capacity to meet the obligations is not strong	Standard assets, moderate credit risk			
Assets where there has been a significant increase in credit risk since initial recognition. Assets where the payments are more than 180 days past due	Substandard assets, relatively high credit risk	Life-time expected credit losses	Life-time expected credit losses

Independent Auditors' Report on Consolidated Financial Statements

To The Members of
The Supreme Industries Limited.

Report on Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of The Supreme Industries Limited (herein referred to as "the Parent Company"), its foreign subsidiary and its associate (together referred to as "the Group") comprising of consolidated Balance Sheet as at March 31st, 2017, the Consolidated Statement of Profit & Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Parent Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, changes in equity and consolidated cash flows of the Group including its associate in accordance with accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014 (as amended). The respective Board of Directors of the companies included in the group and its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the group and for preventing and detecting frauds and other irregularities, the selection and application of the appropriate accounting policies, making judgements and estimates that are reasonable and prudent, and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the directors of the Parent Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the auditor report under the provisions of the Act and the rules made thereunder.

We conducted our Audit in accordance with Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Parent Company's preparation and fair presentation of the consolidated financial statements that give a true and a fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by Parent Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the group as at March 31, 2017, its consolidated profit including other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Other Matters

- The financial statements of various branches of the Parent Company included in the consolidated financial statements have been audited by the nine firms of Independent auditors whose reports have been furnished to us and properly dealt with by us in preparing this report.
- Opening balances have been considered based on the audited consolidated financial statements prepared under previous Generally Accepted Accounting Practices (Previous GAAP) issued by the other auditors whose un-qualified audit report dated April 21, 2016 have been furnished to us. The differences arises from transition from previous GAAP to Ind AS have been derived from such audited financial statements
- We did not audit the financial statements of one subsidiary included in the consolidated financial statements, whose financial statements reflects total assets of ₹ 215 lacs as at March 31, 2017 (as at March 31, 2016 ₹ 151 lacs), total revenue of ₹ 343 lacs, net profit of ₹ 26 lacs and net cash inflows of ₹ 59 lacs for the year ended March 31, 2017 (Revenue of ₹ 196 lacs, net profit of ₹ 9 lacs and net cash inflows of ₹ 15 lacs for the nine months period ended March 31, 2016), as considered in the consolidated financial statements. The consolidated financial statement also include the group's share of net profit of Rs 5,360 lacs for the year ended March 31, 2017 (₹ 1,684 lacs for the nine months period ended March 31, 2016) as considered in the consolidated financial statements, in respect of an associate whose financial statements have not been audited by us. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiary and an associate, and our report in terms of sub-sections (3) and (11) of section 143 of the Act, in so far as it relates to the aforesaid subsidiary and associate, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Group so far as it appears from our examination of those books.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, consolidated statement of changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) As required by Section 143 (3) of the Act with respect to the adequacy of the internal financial controls over financial reporting of the Parent Company-Please refer annexure B of the Standalone audit report attached with the standalone financial statements included in this annual report
- (e) On the basis of the written representations received from the directors of the Parent Company as on 31st March, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Group has disclosed the impact of pending litigations on its consolidated financial position in the consolidated financial statements. (Refer Note 33 to the consolidated financial statements)
 - (ii) The Group did not have material foreseeable losses on long-term contracts including derivative contracts.
 - (iii) There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Parent Company.
 - (iv) The Parent Company has disclosed in the financial statements as to holding as well as dealings in Specified Bank Notes (SBN) during the period from 8th November 2016 to 30th December 2016 and these are in accordance with books of account maintained by the Parent Company (Refer Note 12 to the consolidated financial statements).

Notes to the Consolidated Financial Statements for the year ended 31st March, 2017

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 GROUP OVERVIEW

The consolidated financial statements comprise financial statements of Supreme Industries Limited, Parent Company and its subsidiary and its associate (hereinafter referred as “the Group”).

The Supreme Industries Limited (“the Company”) is public limited company incorporated and domiciled in India and has registered office at 612, Raheja Chambers, Nariman Point, Mumbai 400 021. It is incorporated under the Indian Companies Act, 1913 and its shares are listed on the Bombay Stock Exchange Limited and National Stock Exchange in India.

The Group is one of the leading plastic products manufacturing company in India having 25 manufacturing facilities spread across the country. Company is engaged in manufacturing various plastic products like Plastic Piping System, Industrial and Engineering Molded products, Storage and Material Handling Products, Plastic Molded Furniture, Protective Packaging Products, Cross Laminated Film and products thereof, Performance packaging Film and Composite LPG Cylinders etc.

Group Structure:

Name of Company	Country of incorporation	% of shares held by the parent company	
		As at March 31, 2017	As at March 31, 2016
Subsidiary			
The Supreme industries Overseas (FZE)	UAE	100%	100%
Associate:			
Supreme Petrochem Limited	India	29.99%	29.99%

1.2 BASIS OF ACCOUNTING

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as notified under the Companies (Indian Accounting standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendments Rules 2016 prescribed under section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014

The consolidated financial statements of the Group are prepared and presented on accrual basis and under the historical cost convention, except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- Certain financial assets and liabilities are measured at Fair value
- Defined Benefit and other Long term Employee Benefits
- Derivative Financial instruments

1.3 USE OF ESTIMATES AND JUDGEMENTS

The preparation of the consolidated financial statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the consolidated financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the consolidated financial statements are continuously evaluated by the Group and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Group believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

All the assets and liabilities have been classified as current or non-current as per the group’s normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

1.4 BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and associate as at 31 March 2017. The Parent Company prepares and report its consolidated financial statements in INR (₹).

Subsidiaries:

Subsidiaries are all entities over which the group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)

Notes to the Consolidated Financial Statements for the year ended 31st March, 2017

- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

The group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of controls. Consolidation of a subsidiary begins when the group obtains control over the subsidiary and ceases when the group loses control of the subsidiary.

Consolidation procedure:

Subsidiary:

- Combine, on line by line basis like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income are attributed to the owners of the group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

1.5 GOODWILL

Goodwill arising on an acquisition of a business is initially recognized at cost at the date of acquisition. After initial recognition, goodwill is measured at cost less accumulated impairment losses, if any.

1.6 INVESTMENTS IN ASSOCIATE

Associate is all entities over which the group has significant influences but not control or joint control. This is generally the case where the group holds between 20% to 50% of the voting rights or the group has power to participate in the financial and operating policy decision of the investee. Investments in associate are accounted for using equity method accounting.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105.

Under the equity method, an investment in an associate is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate.

On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

Distributions received from an associate reduce the carrying amount of the investment. Unrealised gains on transactions between the group and its associate are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transactions provides evidence of an impairment of the assets transferred.

Notes to the Consolidated Financial Statements for the year ended 31st March, 2017

When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

1.7 FOREIGN CURRENCY TRANSACTIONS

In preparing the consolidated financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

For the purposes of presenting these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into Indian Rupees using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (and attributed to non-controlling interests as appropriate).

On disposal of foreign operations (i.e. a disposal of the Group's entire interest in a foreign operation, a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Group are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associate that do not result in the Group losing significant influence), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

1.8 OPERATING SEGMENT

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM).

The Group has identified its Managing Director as CODM which assesses the operational performance and position of the Group and makes strategic decisions.

Business segments

Based on the “management approach” as defined in Ind-AS 108 - Operating Segments, the Managing Director/Decision Maker evaluates the Company’s performance and allocates resources based on an analysis of various performance indicators by business segments. Accordingly, information has been presented along with these business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments.

Segment assets and liabilities

The Company is engaged mainly in production of plastic products. Most of the assets, liabilities and depreciation/amortisation of the aforesaid reportable segments are interchangeable or not practically allocable. Accordingly, segment assets, liabilities and depreciation/amortisation have not been presented.

Disputed Sales Tax / Entry Tax demands	537	965
Other claims against the Company not acknowledged as debts	270	280

Notes:

- Most of the issues of litigation pertaining to Central Excise/Service Tax/Income Tax are based on interpretation of the respective Law & Rules thereunder. Management has been opined by its counsel that many of the issues raised by revenue will not be sustainable in law as they are covered by judgments of respective judicial authorities which supports its contention. As such no material impact on the financials of the Group is envisaged.
- Sales Tax and Entry Tax related litigation/demand primarily pertains to non- submission of required declaration forms in time due to non- receipt of the same from customers and/ or some interpretation related issues. However in most of the cases, required documents are being filed and minor impact if any, shall be given in the year of final outcome of respective matter in appeal.
- Other issues are either in ordinary course of business or not of substantial nature and management is reasonably confident of their positive outcome. Management shall deal with them judiciously and provide for appropriately, if any such need arises.

34 COMMITMENTS

- Estimated amount of contracts remaining to be executed on Capital Account and not provided for (net of advances) is ₹ 5889 lacs (Previous year ₹ 4673 lacs).
